

Broadband Show ANGA COM: Kick-Off for the Restart from 10 to 12 May 2022

- Exhibition and Conference for Broadband, Television & Online from 10 to 12 May 2022 in Cologne / Germany
- Leading international vendors like AVM and CommScope confirm their stand bookings
- Exhibitor registration and sponsoring booking available online
- Call for Participation for the technology programme

Cologne/Germany, 28 October 2021 | ANGA COM, Europe's leading Exhibition and Conference for Broadband, Television & Online, has set the starting signal for a brilliant comeback from 10 to 12 May 2022 in Cologne / Germany. Stand booking is already open and a Call for Participation for the technology programme is available online at www.angacom.de. Key topics of ANGA COM 2022 include FTTH, DOCSIS 4.0, 10G, Wifi, Fixed Mobile Convergence, Sustainability, Artificial Intelligence, Cloud Services, OTT, AppTV, Video Streaming, Smart City and Smart Home.

Numerous leading technology vendors have already confirmed their stand bookings for the exhibition, including ASTRA, ASTRO Strobel, AVM, Bertholdichert, BTV Multimedia, CommScope, DCT DELTA, Deutsche Glasfaser, Emtelle, gabo, Ocilion IPTV Technologies, Technetix, Vodafone and WISI Communications. The broadband industry is facing a new spirit of optimism. Even after the pandemic – or precisely because of last year's experience – the expansion of broadband networks is at the top of the agenda everywhere in Europe. In Germany, for example, with its more than 40 million households, network operators and a steadily growing number of international investors have announced an investment of many billions.

Dr. Peter Charissé, Managing Director ANGA COM: “The strength of our ANGA COM show has always been to bring together network operators, media, investors and vendors in a diverse and international way, but without too large crowds. One-on-one appointments and mass events may also decline in the longer term. However, an international and sharply profiled trade show will remain the most efficient way for vendors and clients to fulfill the need to meet new and existing customers in person. This is especially true for international contacts.”

With 10 to 12 May 2022, ANGA COM will take place at a date that allows sufficient lead time. Also, inspiring early summer weather can be expected. International air traffic to Cologne and Duesseldorf has already recovered in recent weeks. Furthermore, legal and company travel restrictions should be lifted by spring of next year at the latest.

ANGA COM is Europe's leading Exhibition and Conference for Broadband, Television & Online. It brings together network operators, vendors and content providers on all issues of the broadband and media distribution. Most recently, ANGA COM counted more than 500 exhibitors from 35 countries and 20,000 participants from 83 countries. Amongst the participants were 540 network and platform operators serving more than 200 million households all over Europe, as well as 370 media companies. 44 percent of the participants belonged to the senior level. The next date is 10 to 12 May 2022 in Cologne/Germany.
