

ANGA COM 2023: Key Topics Fiber, Streaming and OTT

- Exhibition and Conference for Broadband, Television & Online from 23 to 25 May 2023 in Cologne / Germany
- Already binding registrations for more than 12,000 sqm gross exhibition space
- Key topic fiber optics: Leading investors will be present as exhibitors
- New special area media distribution with “Streaming & OTT Hub”
- Exhibitor registration and sponsorship booking at www.angacom.de

Cologne/Germany, 27 October 2022 | With more than **18,000 participants** from 82 countries and 390 exhibitors, ANGA COM, Europe's leading Exhibition and Conference for Broadband, Television & Online, celebrated a brilliant comeback in May 2022. The next show date is **23 to 25 May 2023** in Cologne/Germany.

For the next year – 7 months in advance – a **further increase** is already apparent. There are already registrations for more than 12,000 sqm gross exhibition space with numerous stand enlargements. This corresponds to more than half of the gross exhibition space of 2022. The increase is particularly large in the area of **fiber optics**. In addition to vendors, also network operators and investors are strongly represented. These include, for example, the companies Deutsche Glasfaser, Deutsche GigaNetz, Liberty Networks Germany, Plusnet and VX Fiber with stand spaces between 30 and 150 sqm. Also in the conference programme, fiber topics will be massively expanded: In 2023, there will be an **International FTTH Summit** for the first time with international and practical showcases on fiber roll-out.

A **new special area for media distribution** including a “**Streaming & OTT Hub**” will have its premiere in 2023. Within its core areas of broadband and audiovisual media, ANGA COM will thus once again upgrade new TV and video topics. Part of the special area in hall 7 will be an attractive piazza with a **presentation stage** on innovative topics from the areas of streaming, OTT and AppTV. Here, exhibitors can present their innovations in keynotes, interviews and panel discussions directly in the exhibition hall.

Dr. Peter Charissé, CEO of ANGA COM: “With end of May, we once again have a **perfect date in early summer**. After a fantastic comeback, we will shift into an even higher gear next year for both key topics, fiber optics and media distribution. I am particularly pleased that the **new fiber investors** are massively expanding their presence in the exhibition halls. This is also a clear signal to our vendors that there is huge potential ahead of us. For **TV, Streaming and OTT**, we will start with a completely new hall concept. This will make coming to Cologne even more attractive for exhibitors and visitors from the media sector alike.”

The **booking of exhibition space, advertising and sponsoring** is possible at www.angacom.de. More information on the event and numerous customer reviews from the broadband and media industry can be found in the new [fact sheet](#). The website also provides a wide range of [videos and photos](#). Contact person for the new **special area media distribution** is Kim Dröge, Director Exhibition (Tel.: +49 (0) 221 / 99 80 81 0 or E-Mail: kim.droege@anga.de).

ANGA COM is Europe's leading Exhibition and Conference for Broadband, Television & Online. It brings together network operators, vendors and content providers on all issues of the broadband and media distribution. The last ANGA COM counted 390 exhibitors from 33 countries and more than 18,000 participants from 82 countries. Amongst the participants were 520 network and platform operators serving more than 200 million households all over Europe, as well as 250 media companies. 40 percent of the participants belonged to the senior level. The next show date is 23 to 25 May 2023 in Cologne/Germany.
