A **preliminary speaker list** is available [here](#) on the ANGA COM website. The complete conference programme will be published mid-March and will offer **several new elements** this year. These include:

- **International FTTH Summit** with an international panel discussion and joint showcases from vendors and network operators on fiber optic roll-out across Europe. The new conference track will take place on Wednesday, 24 May 2023.
- **Innovation Stage:** This new presentation and discussion stage directly in the exhibition hall is part of the special area media distribution with Streaming & OTT Hub. Here, exhibitors can present their new developments in the field of media distribution close to their stands. Within its core areas of broadband and audiovisual media, ANGA COM will thus once again upgrade new TV and video topics.
- **Theme Day Fiber & Municipalities:** The third show day, Thursday 25 May 2023, will be the Theme Day Fiber & Municipalities with completely free entrance to the exhibition and conference. In addition to an update on the gigabit strategy and a particularly practical range of information for municipalities, leading fiber-optic network operators will have the opportunity to present their current roll-out concepts to cities and municipalities. Partners of the theme day are atene KOM and the VATM association.

Dr. Peter Charissé, CEO of ANGA COM: “The enthusiastic feedback for the restart in 2022 has been more than confirmed by the bookings for 2023. **The exhibition space is significantly larger than in 2022 and even larger than in 2019.** In both exhibition halls, the quality will also increase again clearly compared to the already very high level last year. At the same time, with the new features on both key topics, FTTH and media distribution, the **conference programme will become even more attractive and international.** No other event brings the C-level of the telecommunications and media industry on stage to the same extent.”

Registration for conference and exhibition visitors is possible [online](#); there will be **no ticket sales on-site**. Tickets for the exhibition are available for 25.- Euros. Participation in the conference programme can be booked from 130.- Euros. On 25 May 2023, the Theme Day Fiber & Municipalities, participation in the exhibition and conference is completely free of charge. Those who already have a regular exhibition or conference ticket do not need to register separately for this day.

Only a few stand spaces are still available in the two exhibition halls. Interested companies are requested to contact the exhibition team (Tel.: +49 (0)221 998018 0 or e-mail: info@angacom.de). The website offers information on [stand booking](#) as well as [advertising and sponsoring](#). Further details on the event and numerous customer reviews from the broadband and media industry can be found in the [fact sheet](#). The website also provides a wide range of [videos and photos](#).
