- New “Streaming & Connectivity Hub” in hall 7
- Exhibitor list, floor plans and ticket shop already online
- Booking of stand space, advertising and sponsoring at www.angacom.de

Cologne / Germany, 3 December 2024 | ANGA COM, Europe’s leading Exhibition and Conference for Broadband, Television & Online, is fully on track for 2025: Exactly 6 months before the start, **registrations have already been received for more than 90% of the exhibition space booked in the previous year**. This is the next record at this early stage. It is particularly encouraging that this includes over 50 new exhibitors who did not take part in 2024. Exhibitors who wish to be considered in the first round of hall planning should register by 17 January. The next ANGA COM will take place in Cologne/Germany from **3 to 5 June 2025**.

In 2025, the **operators of fiber optic networks** will continue to be particularly well represented alongside the vendors of telecommunications and media technology. This includes Deutsche GigaNetz, Deutsche Glasfaser, envia TEL, EWE TEL, GasLINE, metrofibre, NGN Fiber Network, OXG Glasfaser, Plusnet, PYUR, Unsere Grüne Glasfaser, Vodafone and VX Fiber.

Exhibitors and visitors can expect numerous new and optimized features next year in Cologne. For example, the previous special area in hall 7 for streaming and OTT will be further developed into the **“Streaming & Connectivity Hub”**. This also includes the Innovation Stage for particularly practical and compact presentations, and free access for all exhibition visitors. In addition to the media distribution segment, the future topics of AI, connectivity and mobile will also be further extended there.

It is also already clear that the networking and meeting capacities on the fairgrounds will be significantly expanded once again. Among other things, a new ANGA COM Business Centre with extensive logistics for meetings and concentrated office work will be created for this purpose.

Dr. Peter Charissé, CEO ANGA COM: “This year we have kick-started the turbo in terms of planning, organization and sales. Never before have we had so many exhibitor registrations at such an early stage, and never before have we launched the ticket shop for visitors so early. In the conference programme next year, in addition to the top-class strategy discussions, we will focus on very practical concepts on the key topics of copper-fiber migration, in-house networks, connectivity, AI, sales and cooperations.”

All companies already registered for ANGA COM 2025 can be found in the [exhibitor list](#) and the [floor plan](#).

Registration for conference and exhibition visitors is now also possible [online](#) (there will be no ticket sales on-site). Tickets for the exhibition are available for 25.- Euros, participation in the regular conference programme is possible from 140.- Euros. Due to the great success of the conference ticket for young professionals (persons under 30 years), this ticket category can again be booked for ANGA COM 2025 for only 40.- Euros. On the third day, Thursday, 5 June 2025, participation in the exhibition and conference programme is completely free of charge.

With **more than 23,000 participants** from over 90 countries, the past ANGA COM in May 2024 set a new **visitor record**. 480 exhibitors from 35 countries were present in the exhibition halls.

Further information on ANGA COM as well as numerous statements of leading representatives from the fiber optics, broadband and media industry can be found in the [fact sheet](#). For a comprehensive review, [videos and photos](#) are available on the website. It is also possible to book available [stand space](#), [advertising and sponsoring](#) online.

ANGA COM is Europe's leading Exhibition and Conference for Broadband, Television & Online. It brings together network operators, vendors and content providers on all issues of the broadband and media distribution. The last ANGA COM counted 480 exhibitors from 35 countries and 23,000 participants from over 90 countries. Amongst the participants were 600 network and platform operators serving more than 200 million households all over Europe, as well as 250 media companies. 41 percent of the participants belonged to the senior management. The next show date is 3 to 5 June 2025 in Cologne / Germany.
