

INTELLIGENT CONNECTIVITY PARK STATION

With a modern space concept consistently focused on innovation and interaction, ANGA COM is breaking entirely new ground in the central area of hall 7. For the first time, the “Intelligent Connectivity Park” offers **specialized, compact theme clusters for Artificial Intelligence, cloud solutions, data centers and resilience in one central location designed specifically for exchange and networking**. Here, digital infrastructure and intelligent software solutions mesh particularly closely.

Your station in the Intelligent Connectivity Park

Companies from these sectors can present their products and concepts using the new “**Intelligent Connectivity Stations**” directly at the Innovation Stage. These new, compact stations enable a highly efficient, modern show presence with minimal organizational effort.

- **Premium position** in a central location in the immediate vicinity of the **Innovation stage**
- Small **stand space** incl. compact stand construction solution
- **including** furniture, logo branding, WIFI, 43” monitor, daily cleaning, waste disposal, electricity connection and consumption
- **Exhibitor entry** in the ANGA COM exhibitor list (App & Website)
- 2 free **exhibitor passes**
