- More than 40 conference panels with 180 speakers
- 21 international panels in English language, 12 panels focussing on fiber optics
- Over 70 companies of the broadband and media industry will be present as digital partners
- Free registration for congress participants at www.angacom.de

Cologne/Germany, 19 May 2021 | ANGA COM – Exhibition and Conference for Broadband, Television & Online – today published another preview for its new virtual event format **ANGA COM DIGITAL** from **8 to 10 June 2021**. Participants can expect more than 40 conference panels and over 70 digital showrooms from leading companies of the broadband and media industry.

The online congress will take place on a new, **AI-powered digital event platform** that offers online-optimized showrooms and numerous networking options in addition to the conference programme. **Registration is free of charge for congress participants** and is now open at www.angacom.de.

Particular emphasis will be placed on **internationality** and **fiber topics**. 21 of the conference panels are international and will be held in English. 12 panels are dedicated to optical networks as the main topic.

Key topics of the technology panels and digital showrooms include: Fiber Optics, DOCSIS for 10G, FTTH, WiFi, 5G, Fixed Mobile Convergence, Trenching, Cloud Services, IPTV, OTT, App TV, Video Streaming and Measurement. Among the highlights of the international programme will be a Fireside Chat on the prospects of 10G with **Phil McKinney, President & CEO CableLabs** and **Mark Dzuban, President & CEO SCTE**, from the USA. In addition, there will be the following cooperation panels:

- **Fixed Mobile Convergence:** How to examine FMC Strategies, in cooperation with SCTE - a subsidiary of CableLabs, USA
- **DOCSIS – The clear View: Speculation on Spectrum**, in cooperation with The SCTE - The Society for Broadband Professionals, UK
- **10G – Building a Future proofed Network**, in cooperation with SCTE - a subsidiary of CableLabs, USA
- **Women Empowerment in Broadband**, in cooperation with The Cable Center, USA

Dr Peter Charissé, Managing Director of ANGA COM: "We have reached the final straight with our new online congress. The demand of our partner companies was so huge that the conference programme has become even more extensive and international than it has been in recent years at the regular show. I would especially like to thank our partners from the UK and the USA, SCTE - The Society for Broadband Professionals, CableLabs and The Cable Center, for their great support. Having been unable to meet in person for so long, it is especially important for us to stay digitally connected with our friends abroad. We have to take care that the actual circumstances do not create new borders in our wonderfully multilateral industry. With our extended international conference agenda, we want to make a contribution to reach this goal."

Highlights of the strategy programme will be **five summit events** with industry leaders such as Canal Plus, Deutsche Glasfaser, Deutsche Telekom, Discovery, M-net, NetCologne, ProSieben, RTL, Tele Columbus, Virgin Media and Vodafone. These include the "**Fiber Summit – Cooperations and Open Access vs. Overbuilding?**", the "**Broadband Summit – FTTH only or Technology Mix with FTTB, Cable and 5G?**", the "**CEO Talk**", the "**Media Summit – How to win the Streaming Battle?**" and the "**International Content Summit – Strategies to win the OTT Competition.**"

The **complete conference programme** is available on the website www.angacom.de in the section "[ANGA COM DIGITAL > Agenda](#)".

It is still possible to book a **digital partnership** with a digital showroom. All necessary documents as well as a walkthrough of the event platform are available online at www.angacom.de. The companies already registered are listed on the website www.angacom.de in the section "[ANGA COM DIGITAL > Digital Partners](#)".

ANGA COM is Europe's leading Exhibition and Conference for Broadband, Television & Online. It brings together network operators, vendors and content providers on all issues of the broadband and media distribution. Most recently, ANGA COM counted more than 500 exhibitors from 35 countries and 20,000 participants from 83 countries. Amongst the participants were 540 network and platform operators serving more than 200 million households all over Europe, as well as 370 media companies. 44 percent of the participants belonged to the senior level.

In 2021, ANGA COM has launched a new virtual event format with ANGA COM DIGITAL. The new online congress will take place on a digital event platform from 8 to 10 June 2021. Platinum partners of ANGA COM DIGITAL are Ocilion IPTV Technologies and Vodafone. The next date for the physical show is 10 to 12 May 2022 in Cologne/Germany.
